request the honor of your royal presence at the

Black History Month Blood & Bone Marrow Drive

Did you know that 24% of people who receive blood in the New York area are African American, yet only 8% of blood **donors** are African American? Did you know that a little of your bone marrow could save a life? Blood and bone marrow are best matched when the donor and recipient are from the same ethnic background.

Please give a little of your time and donate a pint of blood and/or join the bone marrow registry. You could help save a life.
